To Whom It May Concern:

Because I have many responsibilities outside of physician recruitment, as well as many needs that I fill on my own, I needed a firm that I could truly count on to get the job done when I had a difficult search come up. I prefer to fill searches in-house, but as healthcare changes, the recruitment and candidate availability also changes.

We were recruiting on behalf of a local group and needed to be successful in a timely manner. Medicus Partners called on us to see if they could assist in the effort. I found that the process and the results were just what we needed.

Besides successfully filling our opening, I have found the Recruiting Principal to be very knowledgeable, professional and above all, honest and upfront about the entire process.

Medicus Partners provided us with personalized service and ultimate attention to detail. They present screened, qualified candidates that are educated about our opportunity and facility before we contact them. I am pleased to say that the Recruiting Principal I work with has the competency and integrity that makes Medicus Partners a quality firm to work with.

I have been extremely pleased with the work Medicus Partners has done and have retained them to work on another search. I recommend them to anyone in need of a quality-focused recruitment partner who can produce results.
