To whom it May Concern:

I enjoyed working with Mark Nolen on a recent physician search. He was our contact at all points through the recruitment project from contract negotiation through site visit planning. He was always accessible and responsive. Mark sourced excellent candidates and carefully screened each before presenting them to me. My consultant clearly understood all aspects of the search project because he took the time during his initial visit to ask the right questions and speak with the appropriate people.

I would highly recommend Medicus Partners for any facility's recruiting needs and would utilize the firm again should the need arise.

Sincerely,

Carol Bidwell
