Medicus Partners
14114 Dallas Parkway
Suite 600
Dallas, TX 75254

To Whom It May Concern:

I would like to take this opportunity to thank Medicus Partners, specifically John Garms and Brent Russell for an excellent recruiting experience. We are a small Critical Access Hospital located in Wickenburg Arizona where traditionally it has been difficult to recruit physicians. We signed an agreement with Medicus Partners on December 10th 2008 and by January 15th 2009 we successfully signed a letter of intent with an excellent family physicians. I have worked with many recruiting firms and have had varying success. This was my first experience working with Medicus Partners and it was excellent. They delivered what they promised.

As with any business relationship communication is key to success. John and Brent kept us well informed every step of the process and when they committed to something they delivered and followed up to ensure the outcome was as we expected. When the opportunity for us to recruit another physician arises or when asked by our peers who we would use to do our recruiting we will share our experience and recommend Medicus Partners.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul R. Brosor".
